#### 4. A *statement* section:

This section will present a formulation of policy statements and recommendations if appropriate. At least, it will serve to identify important open issues as well as objectives for future research and development.

### CALL FOR PAPERS

Given this background, the International Program Committee invites individuals and groups to propose or submit contributions to the study for consideration by the Committee. Contributions should be related to the problems and issues identified in the present document and fit into at least one of the four sections of the study just described. Participation in the conference is *only at the invitation* of the Program Committee, but those who submit a contribution are encouraged to apply for an invitation.

In addition to calling for papers, the Program Committee will solicit contributors to address specific questions, to present research contributions, and to share examples of innovative work at the conference. We invite suggestions on topics and names of potential contributors. Also, comments regarding the structure of the conference will be welcome.

The Program Committee will meet in November 1990 to make major decisions about the conference program. For matters regarding the program, please contact:

Professor Mogens Niss  
IMFUFA, Roskilde University
