L'ENSEIGNEMENT MATHÉMATIQUE

REVUE INTERNATIONALE

FONDÉE EN 1899

Organe officiel
de la Commission internationale de l'enseignement mathématique

2^e SÉRIE
TOME 63 – 2017

European Mathematical Society

L'Enseignement Mathématique (LEM)

Official organ of The International Commission on Mathematical Instruction

Aims and Scope

L'Enseignement Mathématique (LEM) was founded in 1899 by Henri Fehr (Geneva) and Charles-Ange Laisant (Paris). It is intended primarily for publication of high-quality research and expository papers in mathematics. Approximately 60 pages each year will be devoted to book reviews.

Volumes older than 5 years, starting from 1899, are freely available on the Swiss Electronic Academic Library Service E-Periodica Portal.

Editors

Anton Alekseev, Université de Genève, Switzerland

Subscription Information

L'Enseignement Mathématique is published in one volume per annum, two issues per volume. Approximately 450 pages, 17 × 24 cm.

Print ISSN: 0013-8584

Online ISSN: 2309-4672

The annual subscription rate is 198 Euro (online only) or 238 Euro (print+online), respectively. The online subscription includes access to the electronic version from IP addresses provided by the customer. The print and online subscription comprises one copy of the print version (postage and handling included) and access to the electronic version from IP addresses provided by the customer. Other subscriptions on request.

Requests for information, claims, orders, and payments for all volumes until 2013 inclusive are to be sent to ensmath@unige.ch.

The journal may be ordered from your bookseller, subscription agency, or directly from the publisher. Please address orders and correspondence to:

EMS Publishing House
ETH-Zentrum SEW A21
CH-8092 Zürich
Switzerland

Tome 63

Table des matières

BERLINE, Nicole, Michèle VERGNE and Michael WALTER: The Horn inequalities from a geometric point of view	403
BONIFANT, Araceli and John MILNOR: On real and complex cubic curves	21
EVRA, Shai, Emmanuel KOWALSKI and Alexander LUBOTZKY: Good cyclic codes and the uncertainty principle	305
Ji, Lizhen and Anna-Sofie SCHILLING: Toric varieties vs. horofunction compactifications of polyhedral norms	375
KAHANE, Jean-Pierre et Eric SAIAS: Sur l'exemple d'Euler d'une fonction complètement multiplicative de somme nulle	155
KOWALSKI, Emmanuel: voir EVRA, Shai, Emmanuel KOWALSKI and Alexander LUBOTZKY	
KWASIK, Sławomir and Reinhard SCHULTZ: Branched coverings and equivariant smoothings of 4-manifolds	201
LEHRER, Gustav I. and Ruibin ZHANG: Invariants of the special orthogonal group and an enhanced Brauer category	181
LUBOTZKY, Alexander: voir EVRA, Shai, Emmanuel KOWALSKI and Alexander LUBOTZKY	
MAEHARA, Hiroshi and Horst MARTINI: Holding convex polyhedra by circular rings	273
MARTINI, Horst: voir MAEHARA, Hiroshi and Horst MARTINI	
MEERSSEMAN, Laurent: A note on the automorphism group of a compact complex manifold	263

MIESCH, Benjamin: The Cartan–Hadamard Theorem for metric spaces with local geodesic bicomblings	233
MILNOR, John: voir BONIFANT, Araceli and John MILNOR	
PETERZIL, Ya’acov and STARCHENKO: A note on o-minimal flows and the Ax–Lindemann–Weierstrass theorem for semi-abelian varieties over \mathbb{C}	251
RADZIWIŁŁ, Maksym and Kannan SOUNDARARAJAN: Selberg’s central limit theorem for $\log \zeta(1/2 + it) $	1
SAIAS, Eric: voir KAHANE, Jean-Pierre et Eric SAIAS	
SCHILLING, Anna-Sofie: voir JI, Lizhen and Anna-Sofie SCHILLING	
SCHULTZ, Reinhard: voir KWASIK, Sławomir and Reinhard SCHULTZ	
SOUNDARARAJAN, Kannan: voir RADZIWIŁŁ, Maksym and Kannan SOUNDARARAJAN	
SPRINGBORN, Boris: The hyperbolic geometry of Markov’s theorem on Diophantine approximation and quadratic forms	333
STARCHENKO, Sergei: voir PETERZIL, Ya’acov and STARCHENKO	
SZENES, András and Michèle VERGNE: $[Q, R] = 0$ and Kostant partition functions	471
TORRES, Rafael: An equivalence between pseudo-holomorphic embeddings into almost-complex Euclidean space and CR regular embeddings into complex space	165
TRAUTWEIN, Samuel: A survey of the GIT picture for the Yang–Mills equation over Riemann surfaces	63
VERGNE, Michèle: voir BERLINE, Nicole, Michèle VERGNE and Michael WALTER	
VERGNE, Michèle: voir SZENES, András and Michèle VERGNE	
WALTER, Michael: voir BERLINE, Nicole, Michèle VERGNE and Michael WALTER	
ZHANG, Ruibin: voir LEHRER, Gustav I. and Ruibin ZHANG	
C.I.E.M. — ICMi news	249

C.I.E.M. — The 2017 ICMI Awards: Felix Klein and Hans Freudenthal Medals	517
C.I.E.M. — Y. SHIMIZU and R. VITHAL: ICMI Study 24: <i>School mathematics curriculum reforms: Challenges, changes and opportunitiess</i> . . .	521

Instructions for Authors

Submission of manuscripts

Authors must submit their papers electronically in PDF format, according to the instructions below, to the following address: EnsMath@unige.ch.

Papers to be considered for publication must be written in English or French. German and Italian are also accepted.

The following information is required with the submission:

- Name of author(s) together with email address(es)
- Complete mailing address(es)
- Name of the corresponding author
- 2010 Mathematics Subject Classification representing the subjects of the article
- Keywords describing the subject matter of the article
- Authors may indicate which Editor is closest to the subject of the paper.

Submission of a manuscript implies that the work described has not been published before and that it is not under consideration for publication elsewhere.

Format of manuscript

The Journal strongly encourages authors to make available LaTeX files for typesetting purposes. Upon final acceptance of your paper you will be asked to e-mail all source files and macros, together with postscript or pdf files, to EnsMath@unige.ch. Authors are advised to create their LaTeX files in 'article' format with \textwidth=125 mm and $\text{\textheight=195 mm}$ or by using the macros available on our websites.

The title page should include the name, affiliation and address (together with e-mail address) of each author and a short abstract in English. The author to whom proofs should be sent should be marked as the corresponding author.

To avoid distortion from rescaling, figures must not be wider than 125 mm. They should be sent as EPS file (encapsulated postscript), or as fair copy on paper, suitable for direct photographic reproduction without major reduction.

All figures, tables, etc. should be numbered, with the insertion place clearly indicated.

References should be listed alphabetically at the end of the paper. All references in the bibliography should be cited at least once in the text. The following examples show the preferred house style for references to a book, a paper in a journal, a paper in a proceedings volume, and an unpublished dissertation:

- [1] R. V. Kadison, Operator algebras — the first forty years. In *Operator algebras and applications*, Part 1 (Kingston, Ont., 1980), Proc. Sympos. Pure Math. 38, Amer. Math. Soc., Providence, RI, 1982, 1–18.
- [2] F. J. Murray and J. v. Neumann, On rings of operators. *Ann. of Math. (2)* **37** (1936), 116–229.
- [3] T. Timmermann, Pseudo-multiplicative unitaries and pseudo-Kac systems on C^* modules. Ph.D. thesis, Münster 2005.
- [4] J. C. Várilly, *An Introduction to Noncommutative Geometry*. EMS Publishing House, Zurich 2006.

Copyright and Offprints

It is a condition of publication in the Journal that authors assign copyright to the Fondation L'Enseignement Mathématique. This ensures that requests from third parties to reproduce articles are handled efficiently and consistently and will also allow the article to be as widely disseminated as possible. In assigning copyright, authors may use their own material in other, non-commercial publications provided that the Journal is properly acknowledged as the original place of publication.

Authors of papers published in the Journal will be entitled to a pdf file of their contribution. Copies of offprints may be purchased in batches of 50 if ordered in advance of production of the corresponding issue, but no later than when the proofs are returned. Prices are available on request from the publisher (info@ems-ph.org).

EMS Code of Practice

This journal adheres to the EMS Code of Practice (see <http://www.euro-math-soc.eu/system/files/COP-approved.pdf>).

L'ENSEIGNEMENT MATHÉMATIQUE

2^e Série / Tome 63 / Fasc. 3–4 / Juillet–Décembre 2017

Contents

- 251 Y. PETERZIL AND S. STARCHENKO
A note on \mathfrak{o} -minimal flows and the Ax–Lindemann–Weierstrass theorem for semi-abelian varieties over \mathbb{C}
- 263 L. MEERSSEMAN
A note on the automorphism group of a compact complex manifold
- 273 H. MAEHARA AND H. MARTINI
Holding convex polyhedra by circular rings
- 305 S. EVRA, E. KOWALSKI AND A. LUBOTZKY
Good cyclic codes and the uncertainty principle
- 333 B. SPRINGBORN
The hyperbolic geometry of Markov’s theorem on Diophantine approximation and quadratic forms
- 375 L. JI AND A.-S. SCHILLING
Toric varieties vs. horofunction compactifications of polyhedral norms
- 403 N. BERLINE, M. VERGNE AND M. WALTER
The Horn inequalities from a geometric point of view
- 471 A. SZENES AND M. VERGNE
 $[Q, R] = 0$ and Kostant partition functions
- 517 C.I.E.M.
The 2017 ICMI Awards. Felix Klein and Hans Freudenthal Medals
- 521 C.I.E.M.
Discussion document twenty-fourth ICMI study
Bulletin Bibliographique

Covered in: Mathematical Reviews (MR), Current Mathematical Publications (CMP), MathSciNet, Zentralblatt für Mathematik, Zentralblatt MATH Database, Science Citation Index (SCI), Science Citation Index Expanded (SCIE), CompuMath Citation Index (CMCI), Current Contents/Physical, Chemical & Earth Sciences (CC/PC&ES), Web of Science.
