HAMILTON

Past Events:

Family Walk at Lake Arapuni 26.10.07 The weather gods were certainly on our side. What a lovely day to go for a casual stroll. After some confusion on where to meet, we got all 18 adults and 5 children together and left for the walk just after 11. The walk took us along the southern end of Lake Arapuni for about 45minutes and it offered ever changing views of the lake, the cliffs, bushes and farmland.

Most of us made it up to the lookout point where we enjoyed more of the same plus views further afield to Mt Maungatautari.

Some stayed back at the lookout while others went back down and carried on to the landing to have lunch there. After a relaxing lunch it was back along the trail again. We enjoyed a communal cup of coffee back at the car park and by 2.30pm most of us were on the way home again.

Thank you to the weatherman, the organiser and the participants. See you next time. *Hans Vetsch*

Future Events:

TARANAKI

Keglen has recommenced under the leadership of Johnny ... attendance has been good, but as always we would love to see some new faces. You will enjoy the company of a fun-loving crowd!!! Recently we decided to purchase a second-hand skittle alley to lay on top of our existing one, thereby hopefully reducing the noise that is currently created on our alley. Our very grateful thanks to Sepp, Emmi and Mark Kiser for donating this alley; we really appreciate your generosity. In the next few months we will get down to the task of laying the alley. During November your committee has undertaken cleaning and maintenance on the interior and exterior of the clubhouse, and also the grounds ... many thanks to our loyal members for giving their time so freely to keep our clubhouse looking great.

Future Events

February 10

The second Sunday in February is the date set down for the Taranaki Swiss Club annual picnic, and we always hope for a beautiful, sunny day. Everyone is welcome, and barbecued cervelats and bratwurst, together with liquid refreshments

are available for purchase. Top your lunch off with an ice-cream, and watch the entertaining schwingen ... with young and not-so-young giving their best efforts in this typical 'Swiss' sport. Other activities are organised for your enjoyment, and as always, there will be a terrific tombola ... just waiting for you to purchase tickets in an effort to win some lovely prizes. The committee make a lot of effort in organising this wonderful day, so please make their day by attending this event with family and friends. Swiss music is always provided 'live' by our talented Zeno, aided by his terrific selection of CDs. We look forward to seeing you there. *MD*

NEWS FROM SWITZERLAND

Hodler climbs to new heights

Ferdinand Hodler, one of Switzerland's best-known and most widely admired artists, continues his inexorable rise among collectors of 20th century art. Over the past few years there has been a surge of interest for the Bernese artist whose figurative landscapes have repeatedly smashed Swiss auction records. Last week Sotheby's unveiled his latest masterpiece to go under the hammer on November 27. "Les Dents-du-Midi" is a view of the spectacular, jagged chain of mountains that Hodler painted in Champéry, canton Valais, in 1916. And it's a mere snip - with an estimated price of SFr5-7 million.

Hodler is regarded as the most important painter in 20th-century Swiss art. Hodler's prices were always high - even during his life-

time - but now there is a bigger market with new buyers so prices are going up.

Hodler painted over 700 landscapes during his long career, drawing inspiration from the Bernese Oberland and Lake Geneva. He developed a unique approach to landscape painting through his knowledge of nature, mineralogy and geology, which he studied at

university, and by making thousands of sketches, which he then developed in his studio using his memory and imagination.

Why has this particular painting, which remained in the hands of the same Swiss family for around 90 years, suddenly surfaced? No doubt the anonymous owner has been watching the rising market for Hodler with great interest. In June 2007 a Hodler oil painting of Lake Geneva, "Lac Léman vu de Saint-Prex", sold for SFr10.9 million at an auction in Zurich, a record price for the artist. The painting had been expected to fetch SFr4-6 million. The previous Hodler record was SFr5.7 million, set by "Thunersee mit Stockhornkette" also in Zurich in December 2006. "Les Dents-du-Midi" belongs to a series of four paintings of the mountain range but is said to be the most accomplished.
