## **Editorial**

Olivier Piguet, Managing Editor

Some readers of *Helvetica Physica Acta* will have noticed that a change of the managing editor was planned for 1993. I now have the pleasure to take over this charge from the hands of my predecessor, Philippe Martin. On behalf of all our authors and readers, I want to thank him for his engagement at the head of *Helvetica Physica Acta* during the last ten years. I shall do my best to continue in the same spirit and with the same efficiency.

Let me recall that *Helvetica Physica Acta*, although oriented towards mathematical physics, welcomes contributions from all branches of theoretical physics. Original articles of this kind will form the main substance of the journal. In addition, some space will be reserved for longer reviews on topics of current interest in theoretical physics. Lastly, being the journal of the Swiss Physical Society, *Helvetica Physica Acta* will continue to publish proceedings of the society's meetings.
