Design competition for a new IUAV building in the area of the Magazzini Frigoriferi at San Basilio, Venice I

Object of the Competition: IUAV Servizi Immobiliari Srl. is the owner of the Magazzini Frigoriferi building situated at the western extremity of the «A. Di Cio» quay in the area of the Venice port of San Basilio. The building itself is devoid of any particular architectonic quality. It is sited overlooking the Giudecca Canal and rises, on the other side of Rio San Nicolò, next to the ex-Cotonificio Veneziano, which now houses most of the Institute's courses in the Architecture Degree Program and the offices of the Design Department. The preliminary project for the Commune of Venice's land Use Plan anticipates the possibility of demolishing the Magazzini Frigoriferi and of reconstructing a university-compatible building. The IUAV Servizi Immobiliari Srl intends construct, in the area presently occupied by the Magazzini Frigoriferi, a new building destined to the Venice Istituto Universitario di Architettura (IUAV) to house, along with teaching and departmental facilities, certain amenities that the IUAV may make available to the City of Venice and its hinterland, including:

- an auditorium with a seating capacity of approximately 500
- a specially equipped conference hall
- a well-equipped exhibition space
- a restaurant and bar
- a bookshop specialized in architectural publications

The maximum volume is 35 000 cubic metres.
