Preparation and Submission of Manuscripts

- The Journal neither favours nor excludes any research orientation. Manuscripts may be submitted in German, French or English. Articles are considered on their merits and in relation to the overall programme of the journal. All manuscripts are subject to review by the editorial committee and by independent experts.
- Contributions should be accompanied by a statement that they have not already been published, and that they will not be submitted for publication elsewhere without the agreement of the Editor-in-Chief.
- It is understood that manuscripts accepted for publication are subject to editorial revision.
- Articles should preferably not exceed 50'000 characters or 8'000 words. They should be accompanied by abstracts of approximately 650 characters or 100 words in English, German, and French and a translation of the main title of the contribution.
- Manuscripts should be typed in double-line spacing. Two copies of the article should be provided, together with a diskette (or as e-mail attachment) in Word, or in RTF- or ASCII-Format respectively.
- Phrases to be pointed out should be underlined. Foot-/Endnotes are to be used sparingly and in particular not for references. Any notes should be numbered consecutively throughout the article, except those in tables and figures.
- The required form of citation is the inclusion in the text, within parentheses, of the author's last name, year of publication and, if applicable, page number(s). The corresponding references should be provided in an alphabetical list at the end of the manuscript.
- The list of references should indicate: for books, author's full name, year of publication (in parentheses), title of book (in italics), place of publication and publisher; and for articles, author's full name, year of publication (in parentheses), title of the article (without quotation marks), title of periodical (in italics), volume and issue number, and pages (see examples below).
- Tables should be numbered consecutively and presented separately, one to a page, at the end of the text. The data on which diagrams and figures are based must be provided (by preference in Excel format). No text should be included within diagrams. Tables and diagrams should bear a descriptive title and any notes should be numbered. The location where tables and figures are to be inserted are marked as follows: # about here Tab. 1 #
- Manuscripts submitted for publication should enclose on a separate page the author's full name as well as his/her institutional affiliation(s) and addresses, and a statistics of the document. The authors should not be identifiable in the body of the article.
- Authors must observe the usual rules and practices regarding the reproduction of copyright material in their articles, assuming responsibility for obtaining permission where appropriate.

Manuscripts should be addressed to: Beat Fux, Editor-in-Chief, Swiss Journal of Sociology, Sociological Institute, University of Zurich, Rämistrasse 69, CH-8001 Zurich, fax: +41 1 634 29 08, telephone: +41 1 634 21 64 or +41 1 261 29 93, e-mail: fux@soziologie.unizh.ch.

Responsibility and Copyright

The responsibility for opinions expressed in signed articles rests solely with their authors. The Swiss Journal of Sociology and the Swiss Sociological Association enjoy copyright for the published articles. The right for publication in print, electronic and any other form and in any other language is reserved by the Swiss Journal of Sociology and the Swiss Sociological Association.

The *Swiss Journal of Sociology* was established in 1975 on the initiative of the Swiss Sociological Association. It is published three times a year with the support of the Swiss Academy of Humanities and Social Sciences.

The journal is a multilingual voice for analysis and research in sociology. It publishes work on the theory, methods, practice, and history of the social sciences in English, French, or German.

Although a central aim of the Journal is to reflect the state of the discipline in Switzerland as well as current developments, articles, research notes, debates, and book reviews will be accepted irrespective of the author's nationality or whether the submitted work focuses on this country.

The journal is understood as a representative medium and therefore open to all research areas, to a plurality of schools and methodological approaches. It neither favours nor excludes any research orientation but particularly intends to promote communication between different perspectives. In order to fulfil this aim, all submissions will be refereed anonymously by at least two reviewers.
