FEDERAL.

NEW BUDGET DEFICIT.

NEW BUDGET DEFIGIT. The real potentialities of the new Parliament will be made clear within a few weeks, when it will be called upon to discuss the Budget for 1936, which has just been published. Revenue for the coming year is estimated at 419,400,000 francs, leaving an estimated deficit of 77,100,000 francs, leaving an estimated deficit of 77,100,000 francs. Revenue shows a drop of about 17 millions and expenditure a rise of 18 millions over the 1935 estimate. The interest on the Public Debt will absorb 90 millions, while the annual charge for the redemption of the Debt remains at 33 millions. The sum devoted to subsidising cereal production — which is controlled and financed by the Government — is to reach 39 millions. Some 7 millions will be spent on insurance for State officials and 8 millions is to be paid into the reserve fund for the financial reorganisation of the Federal Railways. Some 98 millions (69 millions in 1935) is to be devoted to narmaments of which 27 millions will be spent on armaments and 10 millions to a public week and 10 millions in the summer serve of the millions will be spent on armaments and the millions in the summer serve fund for the financial reorganisation of the State of 10 millions will be spent on armaments and serve fund for the financial the public serve fund for the financial the public serve fund for the financial the function of the serve funct of the reduct to narmaments and serve funct of the reduct to narmaments and serve funct of the serve funct of the financial the public serve funct of the serve funct of the financial the public serve funct of the function of the functio of which 27 millions will be spent on armaments and equipment and 10 millions on the purchase and equipment and to minimum on the purchase of horses. Unemployment insurance, extra-ordinary assistance to the unemployed and the various schemes set up for combating unemploy-ment, are to cost over $42\frac{1}{2}$ millions; 23 millions its to be spent on social insurances and about 30 mil-lions on subsidising agriculture.

The 1936 deficit of 77 millions — to which should be added another 30 millions, representing the deficit on the Federal Railways — is to be should be added another so minions, representing the deficit on the Federal Railways — is to be mainly met by the imposition of new taxes. Eco-nomics of about 21 millions, however, are also proposed. They are to be obtained by means of a cut in the salaries of State officials — which were reduced last year by 7 per cent. — and by general economies amounting to 11 millions on ordinary administration expenses. Some 32 millions is also to be secured from the tax on sugar and petrol; 10 millions from an increase in the rates of the "Crisis Tax;" 5 millions from a tax on bank deposits; 40 millions from a new tax on the receipts of industrial, commercial and bank-ing undertakings; and 3 millions from the sup-pression of postal exemption granted to the Can-tonal Governments. Altogether some 90 of 100 million francs will be raised in these ways.

A CENTENARIAN SWISS GUARD.

Colonel Louis de Courten, of Sierre, who is Colonel Louis de Courten, of Sierre, who is now residing at Nancy, celebrated his 100th birth-day. When he was 19 he enlisted in the Papal Army and was present at the Battle of Mentana against the Garibaldians on November 3rd, 1867. He left the Pontifical service in 1870 with the rank of Captain. Eight years later he was re-called to Rome and appointed Commander of the Swiss Guard, which he reorganized. He resigned in 1901 and retired to Sierre. Colonel de Courten, who enjoys splendid health, spends his time partly at Sierre and partly as Nancy, and occu-pies himself with historical research.

LEAGUE FINANCES.

The financial situation of the League on Octo-ber 31st, 1935, showed a cash balance of 10,758,249 Swiss francs. Of the total budget for 1935 of roughly 30,640,000f., over 24,270,000f., have already been received, while 8,600,000f. have also been received in the form of contributions in arrear. This situation is altogether better than was the case at the same time a year ago. This year, on October 31st, 79.21 per cent. of current contributions had been received, as against 63.70 on October 31st, 1934; 28.06 per cent. of contri-butions in arrear had also been received, against 21.43 a year ago.

LONDON, NOVEMBER 16, 1935.

BANK FOR INTERNATIONAL SETTLEMENTS.

The fifty-sixth board meeting of the Bank for The fifty-sixth board meeting of the Bank for International Settlements was opened on Monday last by the President, Dr. Tripp. The board mem-bers attended in full. For the first time a repre-sentative of the newly established National Bank of Argentina, M. H. Becquerel, came to Basle to make closer contact with the European central bank governors. The board accepted the October report, showing an increase of 7,500,000 Swiss frances, bringing the total balance up to 668,400,000 Swiss frances.

Irancs, bringing the total balance up to 668,400,000 Swiss francs. The President made a statement on the favourable situation of the bank. Most central banks of Europe, he said, as well as the banks of Argentina and Nicaragua, had increased their deposits, especially their gold deposits, which en-abled the B.I.S. to fulfil its task of serving more and more as the world centre for the inter-national gold clearing. As most countries had now joined the international postal and tele-graph and telephone clearing agreement, the amount of the sums to be transferred every month by the B.I.S. had considerably increased. The German Government in settlement of the pur-chase price of the Saar coalmines flowed in regu-larly to the B.I.S., so that the total amount of the price of 900,000,000 French francs would pre-sumably be paid before the agreed term of 1940. M. Tannery, of the Banque de France, gave an official denial of the rumour in the French Press that Mr. Montagu Norman, Dr. Schacht, and himself had concluded an agreement concern-ing the sanctions against Italy. SPECIAL SWISS PAPER FOR GERMANY:

SPECIAL SWISS PAPER FOR GERMANY?

Because Germany has banned a large number of important Swiss newspapers, a publisher in Solothurn is reported to have arranged with the German authorities for the issue of a paper to be called the Neueste Schweizer Nachrichten, for German consumption.

Although it is stated that the paper will be politically neutral, the report has excited much speculation in Switzerland.

HUMAN BALANCE SHEET.

2,400,000 died of starvation all over the world in 1934,

1,200,000 committed suicide in 1934 for lack of adequate food.

Out of total inhabitants of the earth of 2,000,000,000, at least 500,000,000 do not poss enough to have satisfactory meals.

These figures are the result of a survey just published in Geneva.

LOCAL.

ZURICH. M. E. Hardmeier, late National-Councillor, has died at the age of 65; the deceased was Presihas died at the age of 65; the deceased was Presi-dent of the cantonal teachers Association; he entered the "Kantonsrat" in 1908 and in 1917 he was elected member of Parliament. (National Council). M. Hardmeier, who belonged to the radical-democratic party enjoyed a great reputa-tion in Parliamentary circles.

SWITZERLAND2 NORWAY0

The third encounter with Norway levelled the The third encounter with Norway levelled the account, each country now having a win, a draw and a defeat to its credit. It was not much of a game in Zurich and after a goalless first half the Reds woke up sufficiently to score twice and secure the spoils. Against Norway's rather weak opposition, our team showed no life, no joie-de-vivre, no cohesion and no effective shooting power, all of which augurs ill for next Sunday's encounter in Budapest. 10th November, 1935

10th November, 1935.
