Federal

Monsieur Rodolphe Rubattel, President of the Swiss Confederation, has announced his resignation from the

Federal Government to take effect at the end of the current year.

President Rubattel was born in 1896 at Villarzel in the Broye valley. On completion of his school education he studied law at the University of Lausanne, where he obtained the degree of doctor of law. He then took up journalism as a profession, and in turn was Editor of the "Feuilles d'Avis de Montreux", "Tribune de Lausanne", "Feuilles d'Avis de Lausanne", and "La Revue".

In 1933, he entered the Grand Council of the canton of Vaud as a Radical, and eleven years later (1944) he became a member of the cantonal Government. He was elected a member of the Federal Government in 1948.

M. Philippe Etter, the Minister of the Interior and last year's President of the Swiss Confederation, told 700 ex-servicemen at Zoug that recent experiences had shown that the atomic bomb in itself was not capable of conquering a country and that the determined resistance of a small force was still decisive. He felt that it was more vital now than ever to keep up the will to resist. Fear and tension, he said, reigned in the world and all countries were re-arming. It would therefore be a fatal mistake to believe that the time to disarm had come.

The Federal Council has announced the following nominations:—

In place of Monsieur Peter Anton Feldscher, Swiss Minister in Vienna, who has reached retiring age, Monsieur Reinhard Hohl, at present Minister in Tokio, has been assigned to be his successor.

Monsieur Alexandre Girardet, Swiss Minister in Denmark, who has also reached retiring age, will be replaced by Minister Camille Gorgé, formerly Swiss Minister in Moscow.

Minister Feldscher was born in 1889 in Masein (Ct. Grisons). After having studied law at the Universities of Zurich and Leipzig, he entered into the service of the Federal Political Department in 1917, where he occupied various posts. In 1941, he was promoted to the rank of Counsellor of Legation, and a year later (1942) was sent to Berlin as Head of the Division for Foreign Interests with the rank of Minister. In 1946, Monsieur Feldscher was nominated Minister in Vienna.

There he has occupied various posts, amongst them Head of the Department of Legal, Financial and Traffic Affairs. Promoted in 1941, to the rank of Counsellor of Legation, and in 1948 to Minister, in which year he was sent to Prague. Four years later (1952) he was transferred to Tokio.

Five years later (1936) he was transferred to Washington where he remained until 1945, when he was nominated Swiss Minister to the Argentine and Paraguay. Since 1950, M. The Head Office of the Swiss Touring Club in Geneva has noticed that a number of foreign drivers and motor-cyclists do not seem to understand the

marking of level-crossings in Switzerland; they interpret the red lights simply as a warning sign, and not as a signal to stop, as is actually the case. Several accidents have occurred as a result of this and the Swiss Touring Club, very commendably, has circulated to all travel agencies and transport concerns as well as tourist propaganda organizations, an illustrated leaflet giving all the relevant details.
