HONOUR FOR ACROW ENGINEERS' CHAIRMAN.

We extend heartiest congratulations to our compatriot, Mr. W. A. de Vigier, Chairman and Managing-Director of Messrs. Acrow (Engineers) Ltd., of 8, South Wharf, London, W.2, who has been made a Knight of the Swedish Royal Order of the North Star.

SWISS MOUNTAINEERS DO THE HAT-TRICK.

The news that members of the Swiss Himalayan Expedition, consisting of eleven men, and led by Dr. Albert Eggler, a lawyer, have not only climbed Mount Everest twice, but also the Lhotse peak (27,890 ft.) the world's highest unclimbed mountain, has been received with enthusiasm.

Mount Everest was climbed by Ernst Schmidt, Jürg Marmet, Ernst Reiss and H. R. von Gunten. The Lhotse peak by Fritz Luchsinger and Ernst Reiss.

As this remarkable feat has been widely reported in the Daily Press we do not propose at present to go into further details, but have much pleasure in reproducing a few short comments from English papers:

"Times Times":

"A magnificent show."

"The Daily Mail":

"It is the greatest day in our centuries-old history of mountaineering."

"Glasgow Herald":

"The Swiss success is eminently deserved."

"Manchester Guardian":

"The Swiss were disappointed of Everest in 1952, they have done themselves ample justice this time."

"Yorkshire Observer":

"This triple victory is a record for a Himalayan expedition."

Colonel, Sir John Hunt:

"It is a very fine show that they managed to climb both mountains. I am glad it was the Swiss."

Sir Edmund Hillary:

"That's a jolly good thing. It's about time somebody else climbed it."

*It's as easy as this
to alter the layout
of your offices
and works*

STEEL PARTITIONING

An interior that is planned for efficiency now will rarely remain the best possible arrangement for very long. Expansion and re-organisation demand a fluid layout that can be adapted and constantly re-arranged to give one hundred per cent efficiency at all times. Acrow Steel Partitioning offers you this. It can be dismantled and erected again and again at no more than labour cost: every unit is re-usable. It compares favourably with breeze-brick walls in initial material cost and shows a heavy saving in initial erection time and labour costs.

Full details are readily available on request. Please write for our illustrated brochure SSP.
