SWISSAIR TICKET EXPERIMENT

As a contribution to fraud prevention Swissair is introducing, for a trial period, a number of tickets printed on fraud-proof paper. The surface of the flight coupons is chemically treated, making erasures impossible and immediately disclosing attempted alterations.

The special properties of the paper used cannot be invalidated by any treatment with water, heat, radiation or any other method.

The object of the experiment is to gain experience of the new paper in airline use. Swissair is the first and only carrier experimenting with it.
