A most unusual view

Take a look through the reflex viewfinder of the Bolex P4. You've probably never seen anything quite like it. The double image, superimposed when the camera is focussed, extends *right over the field of view*. Inevitably, you focus more accurately, more quickly. Just one of the many things about this great camera that means *better films*. Just one of the many good reasons for paying £109. 19. 6. to own it.

The best.
