arrestato certo Giacomo Giamboni, proprietario di una pelletteria di Chiaso, che risultava poi essere il movente principale del delitto. La polizia italiana arrestava a Milano certo Aldo Bardelli, industriale, e due giovani Giuseppe Bonetti e Giancarlo Colombi, i quali avrebbero aggredito la vittima. L'intera faccenda sembra essere connessa con il contrabbando di divisa dall'Italia; pare che poco prima dell'aggressione della Ripamonti era stato consegnato allo Schnorf la somma di 50 milioni di lire italiane in banconote. La polizia italiana, ed anche quella svizzera, indaga ulteriormente sulla faccenda.

#### A NEW PHYSICS RESEARCH CENTRE FOR PRIVATE ENTERPRISE, IN SWITZERLAND

Mettler Co. Ltd., a Zurich firm making precision balances, was founded only 22 years ago. Yet in these few years it has succeeded not only in producing entirely new types of precision balances for science and industry but also in making itself known and appreciated throughout the world with its exports, representing 95% of its output. This firm has just inaugurated a big private research centre at Greifensee near Zurich where it employs a team of 120 physicists, chemists, opticians, electronics engineers and precision machinery engineers, carrying out research in the field of precision balances, thermal measurement and photo-chemistry. One detail will suffice to illustrate very clearly the care taken with production: Mettler balances are tested in the laboratory for over a month under conditions similar to those of their subsequent use, before being placed on the market.
