Ω
OMEGA
Life, Time.

A certain length of time.

Not long ago, this watch would have been pure science fiction. But, thanks to quartz technology and the watchmaker's art, the Omega Chrono-Quartz is fact.

It is very precise. It has so many split second functions* that it comes equipped with its own instruction manual.

Moreover—because we believe decades are just as important as seconds—the Omega Chrono-Quartz is built to time, and time, and time again.

We'd like to think you and your Omega will see in the New Century together.

*Functions: continuous minute and seconds digital read-out; start-stop; totalizer; split times; lap times; time zone shift.

FEATURED THE OMEGA CHRONO-QUARTZ ST 3960839. STAINLESS STEEL CASE AND BRACELET. QUARTZ MOVEMENT. £295.
