To all those who think we only move furniture.

14056 Swiss people in Britain. And no-one wants to return?

A fairly momentous question for a true Confederate! For a transport undertaking with collective deliveries to Switzerland it is the basic question.

We have therefore made a few investigations. The Department for Statistics was able to help us immediately. With figures: of these 14056 Swiss people (a number for the year 1977) 5.5% returned to Switzerland in 1978. This represents 779 people, of whom the important part instructed us to handle their furniture.

We make the return journey Switzerland-England once weekly. So give us a

call. We collect your furniture. Pack it if necessary. Complete all official formalities. And transport it by the quickest route to Switzerland.

You can also call us, however, when you are back in Switzerland. We pack, transport and store everything imaginable. From a few grams to several hundred tons: with a wide variety of vans and trucks (lorries). From babies to disabled people: by taxi and coach. We have produced a brochure for all those who think we only move furniture. Order one.

Group

MOST of the private schools in the lake of Geneva region have formed an association called AVDEP – standing for Association Vaudoise des Ecoles Privées – which offers a very comprehensive advisory service.

Its main purpose is to provide guidance to parents who are looking for a private school for their children, either for a holiday course or for a longer period.

This is an official service, operated under the supervision of the Lake of Geneva Tourist Office. The advice is entirely free, and does not commit parents or children in any way.

The general secretary, Miss Nicole Grandjean, who was in Britain recently to discuss what AVDEP had to offer, said: "We try to refer pupils and students to schools where their personalities can best be developed, under a study programme adapted to their needs, aspirations and interests in general."

winter and summer sports,
university guidance

with a special service to offer parents

The scope of education available in the region is vast, ranging from nursery schools to establishments giving tuition leading to university entrance examinations.

But they also have an extra advantage – their location. The lake of Geneva region is renowned for its magnificent scenery – forests, mountains and lakes – and a very healthy climate. It is also at the cross-roads of Europe's major road and rail routes.

Sports are actively encouraged, and many schools have experienced instructors in skiing, swimming, riding, tennis, sailing, hockey and football. Students' development is also promoted by music, painting, handicrafts and excursions.

Specially popular are the holiday courses, where intensive

lessons in French – or English – are combined with excursions and sports. Lessons are usually for three to four hours in the morning, leaving the afternoon free for sports.

There are a large number of boarding schools, as well as day schools where accommodation is provided with a local family. Because of the international reputation of the Swiss educational systems pupils come from all parts of the world.

Examinations that can be studied for include the British GCE 'O' and 'A' levels, the American CEEB, the Swiss Maturity, the French Baccalauréat and the German Abitur.

There are also specialised schools that offer courses in commercial and secretarial subjects, crash courses in foreign languages, preparation

for technical branches such as architecture and schools for medical assistants.

For further information about schools in the region or recommendation about the most suitable school, write to AVDEP at 10 Avenue de la Gare, 1002 Lausanne, Switzerland.
