# EDITORIAL

---

This edition of the journal is the first in which all the type setting is done literally "in house", so as they say the buck stops here. There are no prizes for spotting the errors! I would be most welcome to receive comment on the journal, with regard to both content and layout.

The year 1990 is a memorable occasion for the Swiss Railway Society, as it is the tenth anniversary of the founding of SRS. As many members will have been busy with their notebooks as they wandered the various tracks and railway workshops throughout Switzerland, and are weighed down by exposed film, I hope that we can look forward to many interesting articles for the new year.

With regard to articles for the journal, may I ask that members limit the size to about 2500 words, I have recently received some truly excellent copy that extended to over 10 typed pages of A4 - more than enough to fill the entire journal - which poses a major problem for me to try and break it into sections without either annoying or boring the reader. If a member wishes to submit an article saved on disk, please note that I use 3.5" disks MSDOS format. The file should be saved as text only, for importing into WordPerfect 5.0\*. Please enclose the usual stamp and address etc for the return of the disk.

### SRS Membership. 576

Edward E Hermanns has written from New York asking if any member can help him with a problem concerning an out of print journal. He is trying to obtain a copy of the June 1987 edition of "**SONNTAG Journal**", which contained an article about the private railways of Switzerland. If any member has a copy or can supply me with a photocopy at a reasonable cost, I will arrange to pass the information to Mr Hermanns.
