BLS	Ae4/4	251		The special trains from the rest of Switzerland were routed into Lonay / Prévèrenge station adjacent to the west end of the site, where a wooden platform extension was built on the westbound track and the station manned for the duration of the exhibition. This replaced the original idea to bring the trains into the north side of the marshalling yard. The most significant visitor was a train formed of RABDe12/12 'Gold Coast' units, presumably from Zürich.
