Historische Seethalbahn (HSTB) held its fifth depot festival and model railway exhibition at Hochdorf over the weekend of 7 and 8 September.

A special visitor on the Saturday was SBB Historic's Ae 3/6<sup>II</sup> No. 10439 which hauled a feeder train from Olten.

The society's steam train worked specials between Hochdorf and Hitzkirch hauled by E3/3 'Beinwyl' and ex- NOB E3/3 456.

On the Sunday two visitors were to be seen on the line. The Oensingen-Balsthalbahn's Red Arrow (RBe 2/4

No. 1007) was there. In view of the line's gradients it required assistance from the society's Seetal Krokodil. The other visitor was Seetal RBe 4/4 No.1405 - a mainstay on the line in the 1980s and 1990s. This railcar now forms part of the collection of dsf (Verein Depot und Schienenfahrzeuge Koblenz). It carried passengers on journeys to Eschenbach and Luzern.

Hans Jörg Schweizer was on hand to record the event and has provided these pictures for us.
