## Assistant Professor (Tenure Track) of Computer-Aided Chemistry

The Laboratory of Physical Chemistry of the Department of Chemistry and Applied Biosciences at ETH Zurich ([www.chab.ethz.ch](http://www.chab.ethz.ch)) invites applications for the above-mentioned position.

Research should preferably aim at modeling the behavior of (bio)chemical systems at the atomic, molecular, and supramolecular level on a physico-chemical basis. Strong methodological, algorithmic, and computational activities, including practical applications, are desirable. Collaboration with experimental groups at ETH as well as teaching (in German or English) in all areas of physical and computer-aided chemistry is encouraged.

This assistant professorship has been established to promote the careers of younger scientists. The initial appointment is for four years with the possibility of renewal for an additional two-year period and promotion to a permanent position.

Your application should include your curriculum vitae, a list of publications and a statement of future teaching and research activities. The letter of application should be addressed to the **President of ETH Zurich, Prof. Dr. Ralph Eichler**. **The closing date for applications is 30 September 2012**. ETH Zurich is an equal opportunity and affirmative action employer. In order to increase the number of women in leading academic positions, we specifically encourage women to apply. ETH Zurich is further responsive to the needs of dual career couples and qualifies as a family friendly employer. **Please apply online at [www.facultyaffairs.ethz.ch](http://www.facultyaffairs.ethz.ch)**.

## Professor / Assistant Professor (Tenure Track) of Advanced Mechatronic Systems

The Department of Information Technology and Electrical Engineering ([www.ee.ethz.ch](http://www.ee.ethz.ch)) at ETH Zurich invites applications for a tenured professorship or tenure-track assistant professorship in Advanced Mechatronic Systems. The responsibility of this professorship is the establishment of an internationally leading research activity in the field of mechatronic or micromechatronic systems with the focus on new sensor, actuator, or energy conversion concepts. Of special importance hereby are physics based modelling, computer assisted analysis and optimization, practical realization and experimental investigation, as well as a strong link to modern analogue and digital electronics and power electronics.

The applicant will be expected to have a Ph.D. degree and an internationally recognized research record or proven potential in the above fields. Furthermore, the new professor should present evidence of leadership in a research team and of ability to successfully cooperate with other faculty and with the industry and should be willing to teach at all university levels. He or she will be expected to teach undergraduate level courses (German or English) and graduate level courses (English).

Your application should include your curriculum vitae, a list of publications, and statements of future research and teaching activities. The letter of application should be addressed to the **President of ETH Zurich, Prof. Dr. Ralph Eichler**. **The closing date for applications is 31 August 2012**. ETH Zurich is an equal opportunity and affirmative action employer. In order to increase the number of women in leading academic positions, we specifically encourage women to apply. ETH Zurich is further responsive to the needs of dual career couples and qualifies as a family friendly employer. **Please apply online at [www.facultyaffairs.ethz.ch](http://www.facultyaffairs.ethz.ch)**.
